

STATKING Consulting Completes Expansion of Headquarters and Adds Safeguards for Document Storage to Accommodate Larger Clinical Trials

Cincinnati, OH – May 9, 2007 – STATKING Consulting, Inc., a provider of data related services for clinical trials, has completed a year-long expansion project at its headquarters to accommodate larger, late-stage clinical trials. This additional 2500 square feet of space will be largely dedicated to case report form storage and housing the company's growing computer network. The space has been refurbished to include state of the art climate, disaster and security controls to safeguard the Client's data.

“In order to better serve our valued Clients, we need to be able to house larger, late stage (Phase III) clinical trials,” said Dennis W. King, PhD, President of STATKING Consulting, Inc., “With our acquisition and the completion of the refurbishing of this space, we will be able to accommodate Phase III drug trials and pivotal PMA device studies.”

As part of the refurbishing of the new area, the document storage area and the data center are equipped with gas fire suppression systems. The entire facility has been re-equipped to include fire detection equipment in all areas. Network computer wiring has been further integrated into the building architecture. This new space will expand STATKING's ability to serve its target market of US small and midsize pharmaceutical, biotech and medical device companies.

Mr. Rod Lashley, Vice President of Statistical Programming and Data Management, said, “We listen to our Client's needs and they are telling us what we need to become their preferred service provider in data related services. We are responding to those needs.”

About STATKING Consulting, Inc.

Since 1989, STATKING Consulting, Inc., has provided data related services (biostatistics, clinical data management, clinical study monitoring, medical writing, project management and clinical trial management) for clinical trials for the regulatory approval of novel drug and medical device products.
